This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

<sup>1</sup> The HP PageWide XL Pro 10000 Printer delivers up to 1 100 ft<sup>2</sup> or 1,000 B1 posters per hour. Number of pages will vary depending on the print mode and application printed.

<sup>2</sup> Conclusion based on internal HP testing, October 2020, measuring the time required to set up the printer. Time measured after unpacking the printer to connectivity check.

<sup>3</sup> Requires an HP PrintOS account, internet connection, and connected internet-capable device. For more information, see <http://www.printos.com>.
